

A CHARGE OF OPPORTUNITIES

evway promo smart

CHARGING STATION

FOR FACILITIES THAT WANT TO OFFER CHARGING POINTS MANAGED DIRECTLY THROUGH SMARTPHONE

Charging station with double socket type 2, power settable from 3,7 kW to 22kW, AC modality, mono or three-phase.

Can be installed inside or outside, in the wall or on a support.

Compatible with any car and motorbike.

User authentication, activation and payment of the charging through App or directly by the manager

PROMO

IMMEDIATE VISIBILITY

On the evway map a specific marker allows to identify immediately the facilities that have a charging station.

DIRECT CONTACT WITH THE CLIENT

A promotional page on the App and the Website allows to manage the relationship with the customers in complete autonomy, thanks to immediate call-to-action-tools.

SOCIAL & TOURISM

Each facility is present in our touristic tour and promoted on the social networks and through our newsletter for the ev-Drivers.

PLATFORM MANAGEMENT

CUSTOMER PROFILING

The charging management through the eway App allows to profile the electric customers and therefore to launch promotional and direct marketing actions.

PARAMETERS UNDER CONTROL

The platform allows the manager to control at any time exhaustive reports about costs, accesses, delivered charges and payments.

SERVICE AND TECHNICAL ASSISTANCE

No worries at all for the manager: the efficiency of the station is always guaranteed thanks to the remote control of diagnostics, assistance and firmware upgrades.
